## **Color Play: Beyond Color Theory**

MJ Kinman

Josef Albers, the great artist/educator of the 20th Century, said, "Colors deceive continuously". And with the help of three simple guidelines developed by 19th Century French scientist, Michele Eugene Chevreul, we can predict how color will try to deceive us! In my class Color Play: Beyond Color Theory, I'll share those rules and help you apply them to your own quilt designs, regardless of your inspiration!

In this class we'll explore:

- How to make your quilts sparkle with value contrast
- How to make your quilts glow with saturation contrast
- How to create powerful and credible transparencies
- How to alter the appearance of a color by placing a different color next to it

This class encourages experimentation in an environment of joyful exploration. Using strips of solid fabrics in a rainbow of colors, values, and saturation, we will explore these ideas and, in the process, strengthen your color confidence.

Materials fee: Color wheel; a wide assortment of fabric strips and squares in a range of hue, value, and saturation.

Wouldn't it be lovely to have a simple place to gather and keep all the needs for planned and, perhaps, unfinished projects? Something with a little pocket to hold a label of contents? Something pretty and practical and lightly padded to keep everything safe and together. What if it was simple and quick to make while teaching a variety of quilting techniques? For instance: piecing, channel quilting, quilt in the ditch,

applique, maybe some free motion (only if you wish)? The class will feature the 1/4" Piecing Foot, using Dual Feed, Edge Joining (center guide), Edge Stitching (side guide), Open Toe (applique and top stitching) and for those that wish Free Motion. Class will include the pattern with three different label pocket designs, a choice between embellishment techniques, a three-page handout on Jill's favorite feet for quilting, placement options for embellishments and a discussion about the various feet and techniques for free motion/stippling. You won't want to miss this class. (folded size is approximately 9" x 16"). Jill will show/demo other uses for the feet in class.
