Ribbons of Thread: A Salute to Libby Lehman (MDB)

Eric Drexler

In the Bernina Studio sponsored by AllBrands.com

Eric has always loved the 3-dimensional effect Libby achieved with her free motion stitching. He brought her directions up to date using some of the new Sulky metallic threads and improved stabilizers. What a fantastic way to experiment with various threads and stabilizers that you might have never tried. This is an easy project for beginner free motion students and will also challenge the intermediate student. It is very forgiving for those with two left thumbs. Eric will walk you, step by step, through piecing the quilt top, creating the ribbons of thread, and free motion quilting. You will learn some great techniques and leave with a piece of art that will dazzle your friends.

Your Body Double: Draping to Fit YOU (MDB)

Joe Vecchiarelli

Flat patterns are necessary, but not necessarily the best starting point for accurate fitting of your three-dimensional figure. Join expert fitter and designer Joe Vecchiarelli in this day long draping experience, as you work on your own dress form to create your personal bodice sloper -- your body double.

Begin with padding your dress form to accurately represent your own shape, in preparation for draping your first bodice on the form. Your body measurements, Joe's demonstration and assistance throughout the morning makes this a priceless opportunity to create a dress form that truly fits you.

Once completed, your dress form will become the base upon which your bodice sloper is draped. Learn the basics of draping as you create, in fabric, what will become your pattern fitting block. **Specific dress form required – see Supply List for details.**

By the end of the day you will have:

- Created your 'body double' on a dress form;
- Draped your basic princess-style bodice on the dress form;
- Converted the draped bodice into a flat pattern;
- Learned to compare and contrast your personal sloper with a paper pattern, and explored how to use the information for fit and design purposes;
- As time permits, you'll learn to change princess lines to darts for both knits and wovens.

You'll take home:

- A record of your exact body measurements;
- A collection of fitting/draping/drafting equipment, including a 2 x 18-inch grid ruler, industrial tracing wheel (not the wimpy home version), metal 18-inch Curve Vary Form ruler, soft lead

Berol pencil, #17 French Curve ruler, #24 straight pins for draping; marking paper

- Muslin for draping and bodice fitting;
- Your padded 'body double' for use in your own sewing studio.

Stripes Yipes! (BYOF)(MDB)

Heather Kojan

In the Pfaff Studio sponsored by S & R Sewing and Vacuum Center

Striped fabric often gets relegated to the borders and binding of our quilts. What if we made striped fabric the star? In Stripes Yipes, we'll explore 2 different ways to use striped fabric to make complicated looking blocks. The morning will be spent with a brief chat about striped fabric, followed by learning our first method where we turn striped fabric into modern geometric blocks. In the afternoon, we'll take a second piece of striped fabric and turn it into sensational hexagonal blocks. Each set of blocks you make can be made into a baby sized quilt. You'll never look at stripes the same way again! **Bring your own fabric; see supply list for details.**

Awesome Athleisure - Wear it Anywhere

Kathy Ruddy

The fashions of athleisure -- yoga pants, leggings and tops -- are now part of our everyday wardrobes. And they're really fun to sew. Learn to make the most fashionable and wearable versions as you explore the components with an expert. Kathy, an experienced fitter who loves to work with knits of all types, will show you how to choose and size patterns for four-way stretch fabrics with different 'negative ease' factors, and how to resource fabrics and notions, including "Filpar" elastic from Italy. Explore seaming techniques for both sewing machines and sergers to make flattering and fun athleisure wear, too. Learn how to copy yoga yokes from finished garments and fit them to your leggings for a custom fit. You can even make an extra-long yoke from contrasting compression fabric, then upscale your low rise pants to the "Spanks"-style effect high rise pants that smooth and slim your waistline. Finally, learn to make the garments your own by adding details like pockets and zippers to hold your smart phone securely.

Learn How to Measure the "Two Easy" Way

Lorraine Henry
We so very often have bodies that have different lengths and different widths from side to side from center front and center back! Amazingly we are not all symmetrical, but patterns are made for only the right side. No wonder we have fitting issues. Sometimes it is just a little difference and sometimes it is a lot, and we need to make a separate pattern for the left side. Therefore, we need measurements on two sides of our bodies both in front and back. Let Lorraine show you how easy it is to do just that! We have to "figure" out the differences to get a really nice fit!

Crayons on My Quilt?!? (BYOF)

Jill McCloy

No drawing ability needed, really. You'll use simple stencils to trace designs onto freezer paper-backed muslin.... how easy is that? Then, starting with crayons, you'll simply color (mostly inside the lines). Jill will help you with shading and application techniques, then take you on to Prismacolor® pencils, which are wonderful because they are wax based and have lots of pigment (color). Wax means you can heat set them, yay!. And, then take another step up to fabric pens. You've built up to the pens, so just have more fun and learn a few extra techniques. These are permanent....what about mistakes? Jill's feeling is cover mistakes with glitter! So, the final step is to create some distractions with shading

and glitter, as you like. Remember to ask about the border secret in Jill's sample. Includes pattern. **Bring your own fabric; see supply list for details.**

The Custom Sleeve Pattern and Balancing the Armhole

Joe Vecchiarelli

Have you struggled with sleeves that are too big, too small, or just don't seem quite right? Join Joe for this hands-on sleeve pattern drafting class. You will be using your very own measurements to create a pattern that is perfect for you. Once you have a basic well-fitting sleeve, you can use this as the basis for any type of sleeve you desire. Joe will guide you through the entire process of measuring, pattern drafting and adjusting. Now that you have your sleeve drafted, it's time to take a look at how the sleeve and bodice fit together. When dealing with the armhole, patterns may have the same measurement front and back. However, is your body really the same front and back? How will that affect the fit and look of the sleeve? Let's bring it all into balance as Joe guides you through the steps involved to truly balance the pattern for a beautiful fit in the armhole area as well as giving you the mobility you desire.

Pattern Alteration Boot Camp

Lorraine Henry
In a perfect world, all figures would be alike – in perfect form. In the real world, we come in all shapes and sizes. Learn what comes first in selecting the right size, what measurements you need, conduct measurement analysis to determine where and what to change for a “combo pack” figure, and much more. Then using half scale practice patterns we will alter patterns for such figure combinations as a short midriff which requires the pattern to be shortened but a rounded back which requires the pattern to be lengthened. We often find opposing figure variations such as this. Learn the order to make these changes so the fit will be correct.

Beginning Hand Smocking

Kathy McMakin
Did you know that most geometric smocking designs are made up of just four basic stitches, configured in different ways? The age-old technique of hand-stitching on pleated fabric is appreciated by all, and can be used in so many ways! Smocking is found not only on vintage garments, but is showing up all over today's trendy baby and home décor treasures, too. Join Kathy as you learn the basic stitches: Outline or Stem, Cable, Baby Waves and Multi-Step Waves. You'll learn how to start each row of stitching, change colors and tie-off. Start with pleated fabric, floss, needles and an illustrated handout, and leave class confident in your smock-ability.

All About Sleeves

Lorraine Henry

There is a lot to learn about our arms. Sometimes patterns need to be changed a bit to get them to fit comfortably and/or correctly. There are many different arm variations that make it difficult to find a sleeve pattern that fits all. Learn how and why we can add width to a sleeve without changing the stitching line length of the sleeve cap. Learn about shoulder joint differences (long ones, short ones, forward ones, ones that tilt to the back) and how to adjust for them. See how to check your length and width measurements in a manner that will develop a better pattern for you.
